Bob Rowley who did a bang up job as Class Agent remains in the same position. Thanks to his efforts, we exceeded our goal. Just a few observations about the college. From what we have learned, the girls seemed to have fit right in and that question is now history. Most of the fraternities are still going strong and some have even pledged girls. A number of our faculty came by reunion headquarters, a lot of them several times, and all are looking very well. We might add that the bartenders from the other reunions came over to see our bartenders and all reported that '42 had the best reunion going. All this goes back to Liz, Gordy and Bob. His classmates will be sorry to learn that Dave Good died about a year ago. Unfortunately, this sad news only recently came to our attention. Most of us will recall being somewhat awed by the fact that Dave graduated summa cum laude (in mathematics), the only member of our class, I believe, to do so. His long career in one or another aspect of this field began, appropriately enough, with teaching mathematics to wartime officer candidates at Amherst. (See "In Memory.")

News was received recently that Bill Whiteside, Bowdoin's Frank Munsey professor of history was one of three faculty members at our sister college to conduct an educational program for Bowdoin's alumni and their spouses on the topic, "Bowdoin Men—As Shapers of Modern America." Among the shapers, it turns out, was Franklin Pierce, 14th President of the United States.

Hank Delfiner's son is graduated from Amherst in the Class of '77. One more deduction lost to Frank Houghton's IRS!

That's it on current news from the class of '43's new "silent majority." Now, won't you drop me a line?

Advertising consultant William B. Cecil has joined the Conference Board as Advertising Sales Director of the Research Institute Magazine *Across the Board*. The magazine will carry its first advertising in September. Bill has more than twenty-five years of experience in magazine advertising and promotion. Following college and World War II service as a naval officer, he joined Modern Industry as promotion and research director. He was called back to service during the Korean engagement, upon returning to civilian life, he became general manager of Industrial Sports and Recreation. Subsequently he was with *McCall's* and *Newsweek* and in January 1947 he established his own consultant company, William B. Cecil Associates. He and Jane live in Manhattan.

Bill Baer is still with Westinghouse in Pittsburgh, with a new assignment in the environmental area. His golf game has deteriorated and he is now getting strokes from his wife. His daughter is working in Cambridge in the alumni relations office at Lesley College.

Tom Greeman's house had a severe fire and while the damage was extensive, he was fortunate not to lose his house.

We are all saddened to learn about the sudden death of Bob Beatty's wife, Barbara, on May 5 in Darien, Conn. Barbara was a great gal and a super "addition" to our Class.

Amherst Board Chairman, George Shinn, like many of us, is also in the tuition-paying business—with one of his four daughters attending Rhode Island's School of Design, and others at Hampshire, Columbia graduate school, and the Institute of Fine Arts in New York. Son Andrew at 15 is still at home and presumably still only a room and board liability for the time being.

William B. Cecil '45, an advertising consultant, has been appointed advertising sales director of the Research Institute magazine, Across the Board.

Bill Brown's daughter graduated from Amherst this Spring *magna cum laude*. Readers of this column may recall her transferring to Amherst after participating in our 30th reunion, her father's first return to Amherst. With five other daughters, he should have come back more often.

Doctor Selig Snow is also in the tuition business. Eldest daughter Laurie has graduated in fine arts from Newcomb College (Tulane) last year and is finishing with a Master's in education at Lesley College in Boston; second child, Matt, is at Amherst; third child, Ilene is in Drama at Ithaca College in New York and the number four child, Julie is still at home and again presumably just a room and board liability. Selig reports his wife "Boo" to be a fantastic mother, wife, tennis player, cook and travel companion. He himself is very busy and happy in the practice of cardiology in

South Miami where he has been for the last 22 years. He sends all of us his best—as well as some of his green paper (for the alumni fund).

Class agent **George Utter** has become a member of an English Dancing Morris Team. He says "We have a new team here called the "Westerly Morris Men & Mummers". We wear white costumes with green vests and black derbys; wear bells on our legs and run around (supposedly in an organized manner) waving handkerchiefs or knock sticks together (I have a couple of large knuckles to prove it). It's good exercise; we meet twice a week. My doctor watched us dance a week or so ago and said I guess I won't see you in intensive care again! (And we'll look you over very carefully next time we see you.)

If you have any trouble in the southern Connecticut area, I suggest that you stop and see **Dr. Ben Gordon** in the Emergency Department of the Bridgeport Hospital. His oldest daughter, Wendy, will receive her Master's Degree in Geology from the University of Michigan next year, while the second daughter, Marcy, has finished her Junior Year at Swarthmore and has spent the summer working at Harvard Medical School. His wife, Ellen, is also back in school getting a Master's in counselling. Naturally, Ben is strongly in favor of making tuition tax deductible.

Ken Shrewsbury writes he is completing his 30th year with the Ford Motor Company and he is still enjoying being manager of heavy truck field operations. His oldest son, Douglas, has just graduated from Alma College in Michigan, while his daughter, Anne, and two grandchildren live in Anchorage, Alaska where his son-in-law is with Arco

Oil. His oldest son, Kenn, Alaska at Valdez.

Francis Newton's son is now associated with him in law in Boston. Another son, Second Lieutenant with the Ansbach, Germany.

Dear Stan:

It was a pleasure talking with you in New York
at the January Conference Board dinner. You
certainly gave an interesting speech.

Thank you for the energy study entitled The
International Energy Situation: Outlook to 1985
as well as a listing of publications which
have been made available to the public.

Also wish to thank you for the information on
how to subscribe to unclassified publications.

I look forward to seeing you on a future

Dear Margaret,

It was nice to see you at the Conference Board dinner and to have a chance to visit beforehand. I hope my comments on family businesses were reasonably appropriate and accurate.

Enclosed is the one study I mentioned which we did not bring with us--that on the world energy prospects. I'm also enclosing a listing of publications which have been made available to the public.

Further, the way in which you subscribe to all of our unclassified publications should you desire to do so is to write to Document Expediting (DOCEX) Project, Exchange and Gift Division, Library of Congress, Washington, D.C. 20540.

All good wishes.

Yours,

Dear Stan:

Just a note to tell you how much I enjoyed your talk before the Conference Board members on January 18th. I thought you handled the substantive matters of your talk extremely well, including a few loaded questions. I might add that your speaking ability is extraordinary. You win my first prize for the best public speaker I've heard in years.

It also was good seeing you again. With warmest regards.

Dear Sandy,

Many thanks for your note of encouragement.
I am most grateful for your support and confidence.

Beyond that, it was great to see you even
though we didn't have a real chance to visit.
I'll look forward to making up for that a bit on
January 18th. Until then, Merry Christmas and
all the best.

Dear Stan:

I merely want to reiterate my very sincere congratulations on the excellence of your presentation Monday evening at the International Management and Development Institute dinner. It was not only a personal pleasure to see you again, but a real morale booster to see leadership of your caliber in action and the confidence with which you are addressing your heavy responsibilities. I am equally impressed with your statement printed in today's (December 7) Washington Post on the rights and responsibilities of C.I.A. employees as they handle classified material. It is a fair and balanced policy which you have stated forcefully and with great persuasiveness.

I'm sure that the tribulations of paring down your somewhat top-heavy agency weigh heavily on your mind these days, but you can count on the support of many grateful citizens for the responsible and forthright way in which you are proceeding.

With all best wishes, and I look forward to seeing you at The Conference Board dinner on January 18 in New York, if not beforehand.

Sincerely,

A. B. Trowbridge

Dear Bill,

Thanks so much for your nice note. I do hope that we will have a chance to get together in New York at the Conference Board. I am very much looking forward to that event. I have been to three Conference Board conferences--including one just a year ago in Mallorca, Spain! They are always enjoyable and stimulating, and I hope to have a good exchange with this special group in New York. I certainly appreciate your good words on what we're trying to do here at the Agency. It's fun and I hope we'll make a contribution in the long run.

Thanks again, and all the best.

I note from the agenda of a future Conference Board meeting that you will be speaking to the group on January 18. I certainly hope I can attend that meeting in New York.

I have watched your excellent performance with a great deal of interest and admiration and am one of those who believes that yours is undoubtedly one of the most important jobs in the world today; thankless, probably, to this generation, but vital to the next. I am so glad you were willing to undertake it.

I see your Dad from time to time at Farmington when we get back to Charlottesville on weekends and he seems to be doing great. I hope they still enjoy as much as they did at first.

Dear Stan:

It certainly was a pleasure to talk with you the other day and needless to say we are very disappointed that you are unable to be with us at Del Monte Lodge in September. I have taken the opportunity of enclosing a preliminary list of our participants.

I, also, am enclosing a list of our "Regional Type" meetings scheduled for the next twelve months here and abroad. We would again be delighted to have you as our guest at any meeting you so wish. Of the domestic meetings we like to suggest the Yama Conference beginning Friday evening November 11th. This meeting is limited to our Trustees and elected Members of the Corporation and the attendees are usually from all corners of the nation.

The other matter we discussed and I would like at this point of time "sign you up" as our speaker for our informal and off-the-record Members Dinner which is scheduled to be held Wednesday evening, January 18, 1978 here in New York City at The Waldorf-Astoria. In the past these meetings are usually attended from 125 to 150 Chief Executives and their guests. We ask the principal speaker to have a few opening remarks and be available to answer questions. The opening evening activities start with a cocktail hour at 6:00 p.m. and, traditionally, adjournment is no later than 9:00 p.m.

Kay Randall joins me in expressing our hope you will be able to do this and we look forward to hearing from you.

*New Direction in

Mr. Wallace called this afternoon to ask for a speech title for Admiral Turner's presentation to them on Wednesday, 18 January. He said it should be relatively short in length and general in scope. The reason for these specifics is that they use the title in their engraved invitations--i.e., in the event he changes the thrust of the speech somewhat it should still fit the title (and not ruin the engraved invitation!). He needs this asap and hopes to have it sometime on Friday or before. If he has not received it on Friday, he will call on Monday, when he will be in Washington for a couple of days.

Along with the title of the speech, he asked for a bio sketch ("the best you have") of ADM Turner, and a press photograph of him. Regarding the bio, he'd like one with a little color -- he mentioned that military ones often include a long list of commands, etc. without any specifics. He mentioned that TIME magazine does good profiles of appointees, etc. They'd like something along those lines.

Dear Stan,

Again you were terrific, as you also
were at the Economic Club affair.

On my card at Bullocks, I asked whether
you would be interested in speaking to the
Beta Gamma Sigma group (comparable to Phi
Beta Kappa) some evening in June. I tenta-
tively reserved the New York University Club
for June 6, 7 or 13.

As a topic, my suggestion would be
"New Directions in Intelligence", with
comments on the oil situation in U.S.S.R.
and its economy.

This will be the most important meeting
of the year, with the Deans of several
universities being our guests.

Sincerely yours,

Dear Len,

Certainly enjoyed seeing you again, even if briefly. You are a two-time loser, having endured the Economic Club also.

I'm flattered by your invitation to give two more talks. I would certainly like to be able to do it. I have to say, in all candor, that I think I must decline for several reasons. To begin with, I've made three trips to New York for speaking engagements in my first ten months in office. I really feel I must spread myself into other territory despite the concentration of very important and attractive audiences in New York. Beyond that, I've booked all that I possibly can do between now and the summer in the way of speaking. There just isn't enough time to keep up with the work and be on the road very much at all.

I do appreciate your suggestions and will hope that in another year or so things may loosen up.

Again, many thanks and warmest wishes.

Yours,

Dear Admiral Turner:

Once or twice a month a remarkably prominent group of business men gathers at One Wall Street to hear a speaker discuss some matter of major interest to the business world.

Such meetings are held in mid-week and begin at four o'clock sharp. The talk lasts half an hour and is followed by a quarter hour question period.

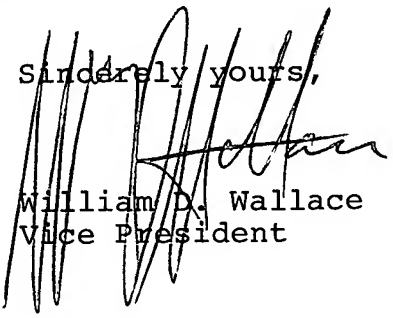

Everything said is off the record, which permits unusually candid addresses and discussions.

A partial list of past speakers is enclosed. Their eminence and the character of the audience have given this institution an international reputation.

Do you think you could come up to New York and honor our forum on one of these dates later in the year: December 1st, December 5th or December 14th?

We sincerely hope you can accept. We promise a most distinguished audience.

ARTHUR OCHS SULZBERGER
PRESIDENT AND PUBLISHER

January 10, 1978

Dear Admiral Turner:

I am delighted to hear that you will be able to join my associates and me for luncheon here at The Times on Wednesday, January 18.

We usually start at one o'clock. If convenient, perhaps you could come to my office about ten minutes before the hour, so that we may talk for a few minutes prior to joining the others in the dining room.

I look forward with great pleasure to seeing you.

Sincerely,

Adm. Stansfield Turner
